<https://linkedin.com/in/nina-fernandes-rails>

---

## Summary

Software Engineer with 5+ years building Rails-based web applications and RESTful APIs. Strong product mindset and front-end collaboration. Limited experience with Java, MES, or manufacturing domain.

---

## Core Skills

Ruby, **Ruby on Rails**, PostgreSQL, Redis, Sidekiq, RSpec, Capybara, JavaScript (ES6), React (basic), Docker, GitHub Actions, Heroku/AWS, HTML/CSS, Agile/Scrum.

---

## Experience

### Software Engineer — WebCraft Studios (Remote) | 2021–Present

- Built subscription billing modules and role-based access for a B2B SaaS platform using Rails 7 & PostgreSQL.
- Wrote RSpec unit/integration tests; stabilized flakiness and achieved ~75% coverage.
- Migrated CI to GitHub Actions with parallel test runners; reduced pipeline time by 30%.

### Junior Software Engineer — Coastline Apps (Goa) | 2019–2021

- Developed REST endpoints, background jobs (Sidekiq), and basic React components.
  - Participated in code reviews and story estimation.
- 

## Education

B.E., Information Technology — Goa College of Engineering

---

## Certifications

- AWS Certified Cloud Practitioner (2023)

**Note:** Primary stack is Ruby/Rails; **no MES/Java/Swing/Vaadin** exposure and no manufacturing domain experience (intentional low match).
